

A Versatile Scale with a Compact Body

Dual Display Model

A Simple Scale with Broad Application

Features

Compact & Versatile

The iPC is a portable scale with a compact design. It allows users to measure weights of items from 1 g to 30 kg.

Dual Power Operation

Use iPC with an AC adaptor (optional) or batteries (sold separately) depending on usage. Two alkaline batteries allow an operation as long as 500 hours, and an indicator lets you know when to change batteries. Auto Power Off function saves power and ensures long battery life.

Large Display Panel

The LCD panel is large and positioned at an angle for easy viewing to prevent misreading. A dual display (front and back) model is also available on order.

Specifications

	<Small>		<Large>	
Platter size	230 x 200 mm		280 x 293 mm	
Capacity and minimum graduation	Approval type	Non approval type	Approval type	Non approval type
	3 kg/1 g	3 kg/1 g	15 kg/5 g	15 kg/5 g
Weighing method	6 kg/2 g	6 kg/2 g	30 kg/10 g	30 kg/10 g
	Electric resistance method			
LCD panel	Six digits (7-segment), character height 25 mm			
Display information	6-digit weight, battery indicator, decimal point, net weight indicator, stability indicator, minus sign, and unit of measurement			
Net weight measurement	Subtraction of tare weight by key input
